

Visitor Policy Covid-19 Addendum

In all education settings, preventing the spread of coronavirus (Covid-19) involves dealing with direct and indirect transmission. A range of controls have been implemented across both schools in the trust to reduce the risk of transmission, following Government guidelines.

GNET schools will continue to welcome visitors in line with the following principles, though where possible, numbers entering the school premises will be kept to a minimum.

1. Visitors must observe arrangements for managing and minimising risk, including taking particular care about hygiene and maintaining distance from other staff and pupils.
2. Visitors must not enter if they are displaying any symptoms of coronavirus (Covid-19).
3. Any visitor who displays symptoms must leave the premises.
4. Visits to a school must only take place where it is deemed necessary.
5. Where a child needs to be accompanied, it must be with only one parent/carer.
