**Caterpillars** - Miss Leivers, Mrs Cooper, Mrs Hodkin

24

Summer Term

## Learning Themes

Our Summer term theme is Out f this World.  
We will be exploring and discovering things that are magical, that can fly and Space!

In our indoor and outdoor Learning Labs the children are encouraged to explore and investigate. They are able to choose what they want to explore, and their learning experience is enhanced and developed through adult open ended questioning.

## PE

In addition to our daily Physical Development learning, we will be having Pe on a Monday afternoon and a Friday morning.

The children will be exploring the new soft play equipment.

Please remember to send your child in sports

## Reading

Everyday is a reading day in Nursery as we explore our book of the week and all the exciting things we can learn from it, share stories together, take part in our Book Talk sessions and enjoy our indoor and outdoor Reading Labs.

Our focus texts this term are:

**Zog** by Julia Donaldson

**Whatever Next** by Jill Murphy

**Aliens in Underpants** by Claire Freedman

## Dates for your Diary

### PLOD– week 13th May

Possible Lines of Development:

Child initiated themes

## Phonics

During our daily Phonics sessions we explore and begin to tune into different sounds. This helps to build our concentration, memory and sound awareness.

We have lots of fun listening and making different sounds. Our phonics activities and games also help the children develop their early reading and writing skills.

This term we are focusing on identifying rhythm and rhyme in preparation for reading.

## Star of the week

We celebrate the children's successes in our star or the week assembly every Friday. The children also earn Dojo points as well for their super learning. We will be making our Dojo points shop this term to spend some of our hard earned points!

## Maths

We use our Maths skills in so many ways, every day in Nursery. Singing number rhymes, counting and checking our toys, buying items in our outdoor shop, sharing out our snacks during Milk and fruit, making playdough, counting our friends as we take turns and many more!

This term we are focusing on the different ways numbers can be re presented.
